

Golden Chlorella™ (GC40)

Golden Chlorella™ (GC40) is a protein dense powder made from microalgae processed through controlled fermentation. This superfood ingredient is full of vitamins, minerals, amino acids, and omegas to support immunity and vitality making it a great addition to everyday dishes without compromising on taste. White (Diamond) Chlorella™ (DC35) is also available for minimal color alteration.

Benefits:

- Consists of 37% protein making it a better option for protein than conventional sources
- Superfood consisting of many additional vitamins and minerals
- Offers essential amino acids including Glutamate and Arginine supporting cognitive & immune function and increasing muscle mass & energy levels
- Provides neither the color nor the taste typically associated with algae due to a sustainable fermentation process

Applications:

- Smoothies
- Pastas
- Plant-based dishes
- Meat analogues
