

Tendra® Fava Bean Protein Isolate

Tendra® Fava Bean Protein Isolate is derived from fava beans, a flowering plant in the legume family with a long history of human consumption. These beans are grown through eco-friendly practices with limited water-use, efficient nitrogen fixation, and a very low CO₂-footprint. Using proprietary extraction technology, Tendra® Fava Protein Isolate is produced as an off-white powder with a neutral taste, high solubility, and good nutritional value.

Benefits:

- Offers high protein content (>85%)
- Provides a good source of minerals like iron, copper, and zinc, and all nine essential amino acids
- Low in carbohydrates, salts, fats, and sugars for a balanced diet
- Excellent emulsification properties & high stability
- Clean-label & non-GMO

Applications:

- Yogurts
- Cheeses
- Plant-based milks
- Functional beverages
- Ice creams
- Dressings
